

ステータコア

Stator core

ニーズに応じたコア提供

We can provide cores according to customer needs.

■ プレス打抜積層高精度コア

High precision stamping core

● 各種積層方式に対応

Supports various lamination methods

● 型内転積も対応可

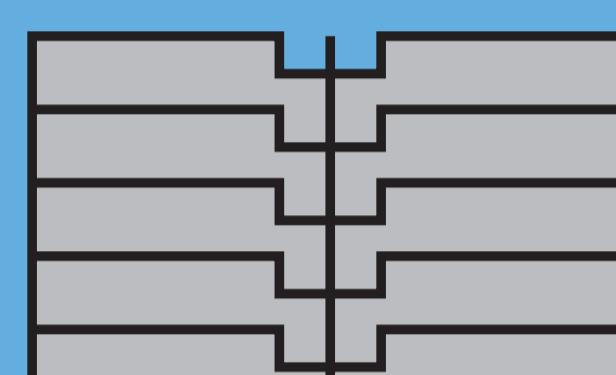

Also supports in-mold transfer

積層方式

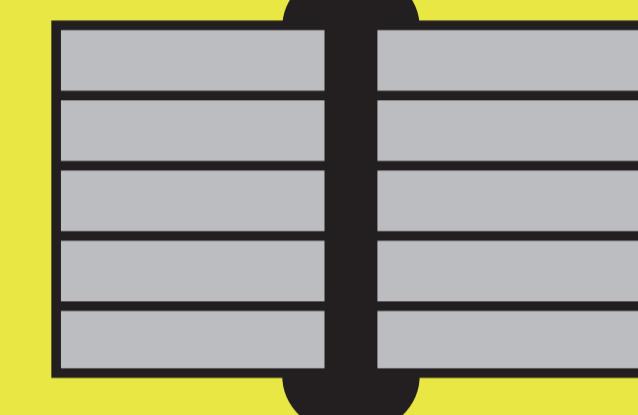

Stacking method

特許出願中

かしめ
Caulking

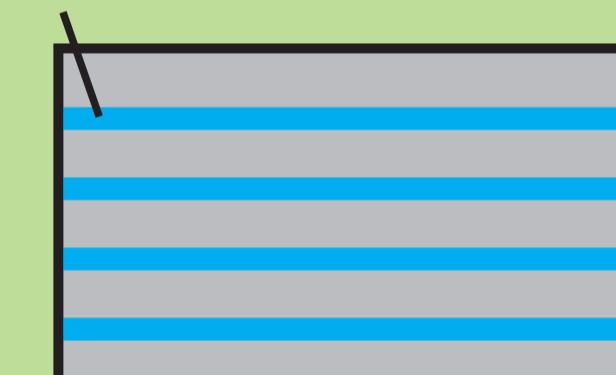

樹脂
Resin
ResiCore

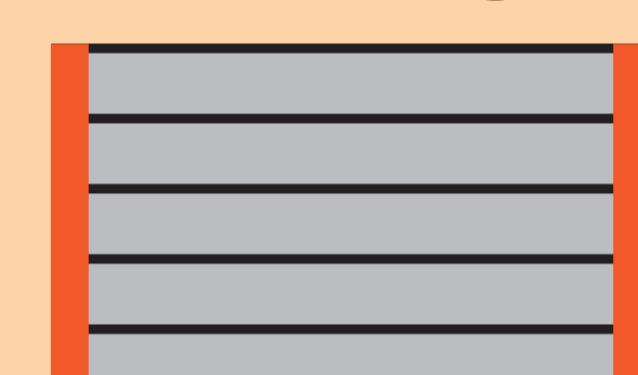

接着

接着剤 Adhesion

溶接

Welding

■ 工場内一貫生産ライン

Integrated production line in the factory

● 各種溶接

Welding

● 歪取焼鈍

Annealing

● 金型メンテナンス

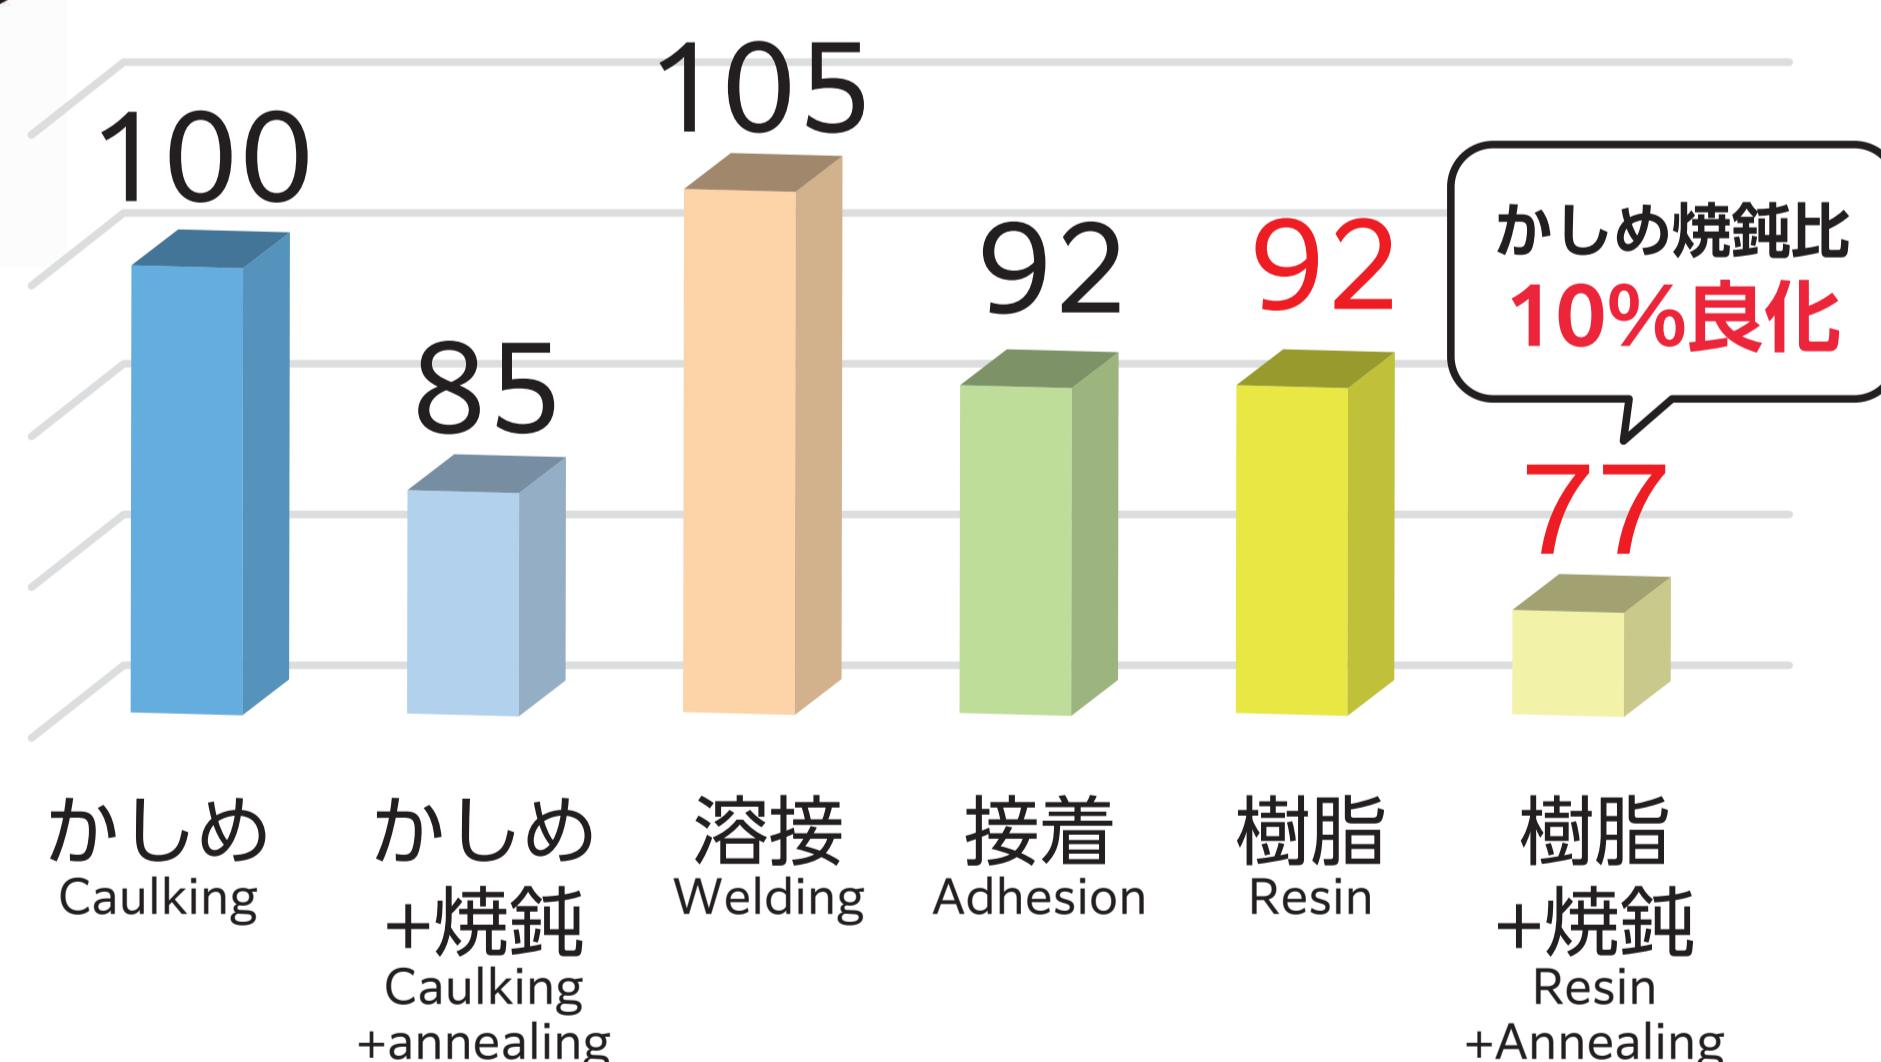

Die maintenance

鉄損値：指数（当社比）

Core loss index (internal investigation)

[W10/400]

■ モータコア専用焼鈍炉新設

New annealing furnace installed exclusively for motor cores

● 低コスト・省エネ (CNに貢献)

Low cost · Energy Saving

● 700~850°Cまで対応可

Supports temperatures from 700°C to 850°C

● 防錆処理

Rust prevention treatment
